01 THE PROBLEM: ONE BROKER, EVERY JOB

As a solo broker you are the marketer, the closer, the funder liaison and the back office. Every hour spent building call lists, copying data between tools or chasing records that were never a fit is an hour not spent on submissions and closings. Buying leads adds a cost that resets every month: published prices we checked run **$15 to $60 per real time MCA lead and $0.20 to $1.00 per aged record**, paid upfront plus a 4% processing fee [S14]. Renting a CRM adds a seat fee that never ends, and the system is never yours.

02 WHAT IS INCLUDED

Component	What it does for you
Luxury Broker Website	A custom, mobile first site with product pages for MCA, equipment, SBA and working capital, a secure application form that records consent with a timestamp, and your actual business address and phone shown, as Florida requires for broker advertising [S17].
Florida Business Lead Finder	Built on the **official Google Places API (New), not scraping**. Scraping breaks Google Maps Platform Terms section 3.2.3 [S4]. Search Florida businesses by county, city and industry. The tool keeps Google place IDs (Google allows these to be stored indefinitely) and refreshes details on demand, staying inside Google's caching rules [S5, S6]. **No extra license fee from NEXORA;** you pay Google's own low usage charges on your own account.
AI Lead Scorer	MongoDB Atlas Vector Search with the Voyage AI **voyage-finance-2** finance embedding model. Ranks your pipeline by similarity to deals you have funded before, using your own first party records (applications, intake notes, outcomes). It supports your judgment; it does not make credit decisions or predict approval.
One Click Outreach CRM	Pipeline from new lead to funded and renewal. One click, human sent email, call and text from your templates, with consent, opt out and do not contact flags checked before every send. Funder submissions and commissions tracked. No autodialer and no prerecorded calls.

Ownership: *code and data live in accounts registered to you (hosting, database, Google Cloud, Voyage AI), so there is no NEXORA subscription to keep the system running.*

05 ILLUSTRATIVE ROI: WHAT IT TAKES TO PAY BACK

Formula: monthly commission = incremental funded deals per month × average funded amount × commission %. Break even deals = setup fee ÷ commission per deal. Payback months = setup fee ÷ (monthly commission minus running costs). Commission inputs are informed by published ranges: MCA mostly 6 to 12 points, term loans 1 to 5% of the funded amount [S9]. Every input below is an ESTIMATE or ASSUMPTION.

Input or result	Conservative	Base	Optimistic
Incremental funded deals per month (ASSUMPTION)	1	2	3
Average funded amount (ASSUMPTION)	$25,000	$40,000	$60,000
Commission % (ASSUMPTION)	4%	7%	10%
Commission per deal	$1,000	$2,800	$6,000
Monthly commission	$1,000	$5,600	$18,000
Less running costs (ESTIMATE, high end)	$160	$160	$160
Net per month	$840	$5,440	$17,840
Pro $8,500: break even deals | payback	**8.5 deals | 10.1 months**	**3.0 deals | 1.6 months**	**1.4 deals | 0.5 months**
Launch $4,500: break even deals | payback	4.5 deals | 5.4 months	1.6 deals | 0.8 months	0.8 deals | 0.3 months

Results are illustrative, not promised. *NEXORA does not guarantee leads, approvals, funded deals or income. Figures are gross commissions before clawbacks, splits, taxes, lead spend and the value of your time. Replace every input with your own numbers.*

07 COMPLIANCE NOTE (NOT LEGAL ADVICE)

- **TCPA (FCC rules):** consent is required before autodialed or prerecorded calls or texts to wireless numbers; commercial texts and prerecorded telemarketing calls need prior written consent; honor opt outs made in any reasonable way [S15].
- **Florida Telephone Solicitation Act, s. 501.059:** no automated or recorded sales calls or texts without prior express written consent; never contact a consumer or business that asked not to be contacted; transmit caller ID; calls to Florida area codes are presumed to reach Florida residents [S16].
- **CAN-SPAM (15 U.S.C. 7704):** applies to commercial email, including to businesses: truthful headers and subject lines, a clear ad notice, a valid physical postal address, and a working opt out honored within 10 business days [S18].
- **Florida Commercial Financing Disclosure Law, s. 559.961 and following:** covers commercial financing of $500,000 or less consummated on or after Jan 1, 2024. Providers deliver the written cost disclosures; brokers may not charge advance fees and must show their actual address and phone in every advertisement [S17].
- **Google Maps Platform:** no scraping, and no storing business names or addresses beyond Google's terms; the lead finder stores place IDs only [S4, S5, S6].

The OS is built for consent based outreach: consent capture, opt out and suppression flags, and human sent messages. You remain responsible for how you use it, including do not call list checks and funder disclosures. This is general information, not legal advice; confirm your program with a Florida licensed attorney.

08 YOUR NEXT STEP

Book a 30 minute discovery call. We confirm your products, funder relationships and target Florida counties, then send a fixed scope Statement of Work with your final tier price for signature. No payment is requested until both sides sign the scope.
